## **FIRE SUPPRESSION NEWSLETTER**

Last Saturday at 11:00 a.m. was a very successful orientation of the fire suppression vehicle. At the end of the orientation some 20 keys were issued for the fire hall. As well, several owners have indicated a desire to take the reigns and start the fire suppression committee. It is hoped that further orientation will take place, including many more of the residents or homeowners. We are lucky to have within our group; individuals involved in fire fighting as well as fire training.

If you agree to have your email circulated to the committee secretary, please let Barb (barbt@emconservices.org) in my office know, so that a separate email list can be compiled for the committee as a contact method.

One item that is being investigated is a fire siren that would identify to residents that a fire call is going out.

F.R. Rizzardo. A.Sc.T., GSC
