FIRE SUPPRESSION NEWSLETTER

The Fire Suppression Committee is working hard to make our homes safe. However, there are costs involved in providing for fire suppression protection and to pay for training of staff, 911 service, as well as audits. We require funding and attached is an approximation of these costs. So, the question that needs answering is:

Will you contribute funds towards the costs involved in setting up a proactive fire suppression program? We can build this program over time, resulting in smaller increases in the monthly fees.

Please provide you reply to Barb (barbt@emconservices.org).

Thank you.

F.R. Rizzardo, A.Sc.T., GSC
President
