NLSE Lot Owners

A group of residents met on Saturday, September 4, 2010, to continue discussions on possibly establishing a Fire Suppression Committee.

A resident, Rob Hunter, a lawyer who specializes in liability and negligence law, provided a memorandum and gave a report on the liability and risk management issues facing a possible fire suppression committee and fire suppression brigade. Upon his good advice and with the agreement of the rest of the attendees, it was decided that we would not form a fire suppression committee that would represent the owners of the Nicola Lakeshore Estates at this time. Many questions were raised which we felt required further investigation and consideration.

Rob will discuss matters such as insurance, and funding for equipment maintenance and training with Frank Rizzardo and report on his findings before any further options are considered.
